

Appl. No. 10/560,174

Markus Steinmann
2003P05778WOUS

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Markus STEINMANN	Art Unit: to be assigned
Application No.: 10/560,174	Examiner: to be assigned
Filing Date: 12/09/2005	Atty. Docket: 2003P05778WOUS
For: <i>Locking Device for Switch Blades with Adaptable Profiles</i>	Confirmation No.: 1445

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
United States Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Listed on accompanying form PTO/SB/08A are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§1.56, 1.97 and 1.98.

Applicant reserves the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that an exhaustive search has been made, or that there does not exist information more material to the examination of the present patent application. The Examiner is specifically requested not to rely solely on the material submitted herewith. It is further understood that the Examiner will review art of record in all 35 U.S.C. §120 priority documents.

- This Information Disclosure Statement is being filed within three months of the U.S. filing date OR before the mailing date of the first Office Action on the merits. No certification or fee is required.

Appl. No. 10/560,174

Markus Steinmann
2003P05778WOUS

- The document(s) was/were cited in a corresponding foreign application, international search report, and/or within the US filed application.
- Form PTO/SB/08A lists documents that are cited and discussed in the instant patent application on pages 1 and 2. For cited German patent application DE 43 15 200, form PTO/SB/08A lists instead corresponding U.S. Patent No. 5,562,267. An English translation of EP 885 795 is attached.

EP 0624508 discloses a locking device which seeks to achieve a tight connection between the switch blade and the stock rail. This is achieved by providing the locking bearing connected to the switch blade with an elongation which presses against a locking support firmly connected to the stock rail when the locking device locks, as a result of which the switch blade pivots about the locking bearing and is pressed tightly against the stock rail.

It is respectfully requested that the Examiner initial and return a copy of the enclosed form and to indicate in the official file of this patent application that the documents have been considered.

It is Applicant's understanding that no fee is due for this request. However, in the event that the Patent and Trademark Office determines that an extension and/or other relief is required, Applicant petitions for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No.: 502464 referencing docket no.: 2003P05778WOUS. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Respectfully submitted,

Date: 7/26/06

John P. Musone
Attorney for Applicant
